

# Transferring Care to OhioHealth Infusion Pharmacy

## WHY CHOOSE US?

### + **Attentive and accessible team**

Our **pharmacy team is available 24/7**. We make regular calls to discuss your treatment course and arrange medication refills, which are delivered directly to you at home.

### + **Interdisciplinary approach**

Our pharmacists **work closely with inpatient and outpatient care teams** to assist in your clinical management. For example, we can help with dosing antibiotics and adjusting IV administered nutrition based on weekly lab values.

### + **Focused on safety**

Advanced software helps us monitor your transition from an inpatient to outpatient setting, which **improves your continuity of care and minimizes medication errors**. Our pharmacy is accredited by The Joint Commission, an organization that's responsible for many of the safety standards used in healthcare today.

### + **Insurance coverage**

We **accept most major insurance plans**. A benefit check is provided at the time of referral to confirm the requested service is covered. Payment plans are available if needed.
